Functional Requirements Document (FRD) Client-Facing Analytics Dashboard

Project Title: Client-Facing Analytics Dashboard
Date:
Prepared By: Geetanjali Dhoke

Performance Requirements:

- ✓ Dashboard should load within 3 seconds for up to 500K records.
- ✓ Data refresh process should not exceed 15 minutes.

Scalability:

- ✓ System should support a 10x increase in users and data without degradation.
- ✓ New dashboards should be deployable via existing template frameworks.

Security

- ✓ Data access must be secured using IAM roles and row-level permissions.
- ✓ All data transfers must use TLS encryption.
- ✓ Use of CloudWatch logs for auditing and monitoring access.

Availability

- ✓ Dashboard must have 99.9% uptime with failover supported.
- ✓ Lambda and Glue jobs should auto-retry on failure with alerting.

Usability

- ✓ Interface should follow responsive design guidelines.
- ✓ All dashboards should include hover-over tooltips and legends for clarity.
- ✓ User onboarding should not take more than 1 hour.
